

# Valentine Shaker Card

[www.stampalosoopher.com](http://www.stampalosoopher.com)

Stamp Set: You Plus Me

Paper: Basic Black, Whisper White, Real Red,  
Shared With Love DSP Stack, Window Sheets

Ink: StazOn Black, Real Red

Markers: Real Red

Accessories: 1/8" Silver Ribbon, Frosted Sequins, Silver Glass Glitter, Teeny Tiny Pearl

Standard Tools: Stampin' Trimmer, Simply Scored, Scissors, Tombow glue, Dimensionals, Snail

Special Tools: Big Shot, Heart Framelits, Shaker Frames foam adhesive,  
Confetti Heart Border Punch, Extra Large Oval Punch, Red Sharpie

Main Card: Basic Black 11 x 4 1/4 Score at 5 1/2

1<sup>st</sup> Layer: Whisper White 5 1/4 x 4

Inside Layer: Whisper White 5 1/4 x 4

Top Layer: DSP 3 3/4 X 5

Inside Bottom: DSP 3 3/4 X 1 1/2

Scrap for greeting: Whisper White 2 1/2 X 1 3/4

Ribbon: 1/8" Silver Two 4 1/2" lengths

Window Sheets: Two 3 3/4 x 3 3/4

1) Glue DSP to Whisper White Layer, running snail on the outside edges only and leaving bottom third unglued to position ribbon after the hearts are cut. Position the heart framelit #3 & cut through both layers. (Counting heart framelits smallest to largest) These two cut out pieces will be used for the inside. You will stamp the twitterpated and double arrows on the white heart cut out and then border it with the DSP heart cutout by cutting that heart in half.

2) Use this layered top as a template to cut front heart on black Main Card front. Do not glue it on the main card front just use it to position the framelit to cut.

3) Use it again as a template to cut the inside layer's heart as well as a frame for the front heart. Use the heart framelit #3 and #4 at the same time to cut a frame border for the front leaving the inside whisper white layer with a lovely cut out heart.

4) Glue White inside layer on card. After you have stamped and added the DSP border to the inside heart, position it inside the larger heart and glue in place.

5) Stamp the "Be Mine" in Real Red on the Whisper White scrap and punch with extra large oval. Glue DSP strip on bottom of inside and then the oval "Be Mine" on top decorating with sequins and red hearts.

6) Glue the ribbons on the bottom front and glue the remaining lower edges of DSP (that we left unglued in step 1) to the Whisper White top layer. Color the hearts with Real Red. Glue the border cut out around the front heart.

The Shaker Part: Work on the backside of the front layer. Glue one of the window sheets over the heart. Place shaker frame foam on the window sheet all around the heart, cutting the foam where necessary to straighten, but being careful to not have any gaps between the pieces. Fill with glitter & sequins. Pull off foam backing and glue second window sheet over the foam heart shape. Now you can glue that top layer to the main card using dimensionals. Stamp your name on the back! SAL.
