- Base-Cardstock: 10 1/4" X 8"
 - Score at 5 1/2" on long side (note: leaves 4 3/4" so it is not half)
 - Cut in half (4") on 8" side
 - On the short 4 3/4" make a pencil mark at 4"- SCORE from point to mark
 - Repeat on second half of base
 - Flip one of the halves over and glue the two halves together in middle so there is a triangle fold on the top left & bottom right
- Triangle Mat-Coordinating cardstock 3 3/4" X 3 3/4" cut in half diagonally
- DSP Triangle Top- 3 1/2 X 3 1/2 cut in half diagonally (be careful with directional DSP remembering that the card is portrait)
- Coordinating DSP X 2 – 3 3/4" X 4 1/4"
 - Tricky – fold your card base to portrait and then fold down a triangle
 - Lay your DSP on the base 1/8" down for border at top and pencil a mark about 9/16" which should be 1/8" from the triangle fold
 - Cut the DSP from the point to the pencil mark
 - Repeat on the other DSP piece
- Inside Mat – 5 1/4" X 3 3/4"
- Inside Top – 5 1/16" X 3 5/16"
 - Stamp your desired greeting/image, layer on mat and mount to middle
- Focal Image on Front – layered circles or die cut image or ??? your choice- just keep the image less than 3 1/4" X 3 1/4"- glue on **after** adding ribbon
- Ribbon: 24"

Cardstock, stamps, inks, and embellishments are up to you!

Have fun! I look forward to seeing what you create!
